Dear Mr Bernardino,

Thank you very much for the discussion in the ECON Committee of the European Parliament we had today, regarding your application as a chairperson for the European Insurance and Occupational Pensions Authority.

For our Group (Greens/EFA) it is important to know on how you as a chairperson for a European Supervisory Authority would deal with lobbyists and representatives of the supervised industry.

Your answer to this question was not fully clear and I know that this applies also to colleagues of mine. Would you therefore be so kind and clarify the following question:

Can you insure us to make publicly available information on whom your institution meets, on which issues and minutes of these meetings as far as possible under current law?

Thank you very much in advance for your help and understanding.

Best regards

Sven Giegold
